CARISMA COMBINATION EQUIPMENT CARISMA

Article: 1907

On the Carisma Combi device, children can play together and meet each other on the two climbing platforms. At the same time, the curved uprights stimulate the imagination of the children playing, because such a twist can be anything. Play elements of the Carisma Combi device: climbing net, ramp net, climbing platforms, fire rod, balance beam with holding boat and slide. The Carisma Combi device is available in any standard RAL colour. The nets and the holding rack are available in the colours red, black, blue and green.
