ADVANTAGES

- ✓ Developed in collaboration with TNO and Top Health Partners physiotherapists.
- ✓ EPDM rubber is also available in black.
- ✓ TÜV certified.

FIFTY+ BALANCE PATH FIT4LIFE

Article: 1376

The Fifty Balance path consists of angled treads with handrails on both sides. The sloped rails serve to increase the difficulty or add variety to the exercise. With the angled treads, the Fifty+ Balance path provides the perfect exercise to improve your walking ability. For both rehabilitation and for working on self-confidence, this exercise device offers a great deal of added value and is a valuable addition in a fitness park. The Fifty+ Balance path is standard equipped with blue EPDM on the handrail and treads.
