MADERA CLIMBING FRAME MADERA

Article: 1408

Several children can climb and tumble at the same time on the Madera Climbing frame. At the same time, the curved poles, with the special, strong light-brown coating, stimulate the imagination of children playing, because a curve like that could be anything. Play elements of Madera Climbing frame: a ladder, climbing net, climbing and sliding pole, rotating climbing plates, tumble bar and climbing rope. The Madera Climbing frame is standard equipped with green ropes and green EPDM on the climbing plates.
