

IJSLANDER

## ADVANTAGES

- ✓ Developed in collaboration with TNO and Top Health Partners physiotherapists.
- ✓ Resistance of the pedal system has been set in consultation with physiotherapists for maximum results.
- ✓ These pedals are also available separately to use in front of a bench.
- ✓ The Fit4Life Fit Bike is for individual or dual use.

## TWENTY+ FITT BIKE FIT4LIFE

Article: 1387

The Twenty+ Fitt bike has a beautifully designed seat with support for the upper and lower back. The EPDM on the seat and backrest provides a firm grip and the pedals provide the perfect resistance for proper cardio exercise thanks to an innovative system. The pedals are also available separately, for example to be placed in front of a bench. Using the Fit4Life Fit Bike also keeps the hips, knees and ankles supple. The equipment is also easily accessible with a wheelchair. The Twenty+ Fitt bike is standard equipped with blue EPDM on the seat and handles.
