

This Water- and play equipment offers various play elements such as: a crawling tunnel, slide, fireman's rod, stairs, climbing net, water pump and a closable water basin. Kids can fully climb, slide, splash, pump water and play with sand and water. The Water- and play equipment is standard equipped with a blue crawl tunnel, stainless steel ramp net and blue water dividers. The pump of the device is made of steel, the handle goes between the bars of the combi equipment what makes it possible to pump from the platform. The other parts are made of stainless steel 304...
