

IJSLANDER

ADVANTAGES

- ✓ Safe due to directly running water.
- ✓ Stimulates interaction and fantasy children.
- ✓ Available in any standard RAL color.
- ✓ TÜV certified.

WATER WAYS NIAGARA SPELEN

Article: 1999-470

Children can have hours of fun with this large arrangement. The set-up has a pump that pumps water into a triangular tilting water bowl that can let the water flow to the left or right. The large square tubs are ideal for playing with sand and water. And because everything is customizable, the possibilities of combining more waterways are endless. The water ways are made of stainless steel as standard and equipped with a hand pump and platform to stand on.
