

IJSLANDER

### ADVANTAGES

- ✓ Safe due to directly running water.
- ✓ Stimulates interaction and fantasy children.
- ✓ Available in any standard RAL color.

## WATER PUMP WITH A CONNECTION TO THE WATER NETWORK WATERPLAY

Article: 1856

With this water pump with a connection to the water network, children can pump water themselves into a container or bucket. And then mess around with sand and water. Or throw your friends nice and wet. Fun and educational! However, this hand pump is only one of the many water play equipment that Icelander can make. Any creation, size or shape is possible.
