foundation

1.minimal foundation Ø300mm
2.minimal foundation Ø400mm
depth of foundation 700mm

This shows which way goes ground fixing.
Ground fixing has to match with correct post.
Both are marked with same letter.

1. Hang and fix the chain in the right place and pour concrete.
2. In the case of EPDM, first put the chain through the plastic tube.
3. Tighten the rope and fasten it to the chain with a shackle (you may have to cut the chain shorter).
3. Fill the area with sand or other suitable material (in the case of EPDM, cut the plastic tube to the same level with the surface)
